# Case Study

“ We are extremely pleased with the end result, the offices look fantastic. Throughout the project we were offered support and advice at every stage.

To be honest, we are over the moon with the finished look!!”

## The Requirement

As one of the largest firms in Essex, Gepp & Sons are dedicated to providing a complete legal service to both business & private clients.

By combining their high standards of operation with a traditional personal approach they have achieved continual growth.

Acquiring new premises in Chelmsford, Essex to accommodate their expanded staffing levels, new office furniture was required throughout to create a modern and light working environment.

Gepp & Sons selected a local supplier to them, Absolute Office Solutions, who are based in Braintree to discuss their requirements. In particular the need for the offices to remain open plan and allow for future growth.

Having worked closely with one another before, Absolute Office and JF Nott presented ideas to Gepp & Sons inviting them to the JF Nott showroom to view the product first hand in addition to the manufacturing facility.

## The Solution

The open plan offices were fitted with Beamtec desking throughout due to its ability to create a modern, team working environment in addition, to keeping costs and clutter to a minimum.

All power and data cables were kept under control due to Beamtec's ability to manage them effectively through a cable riser, integral to the desk leg. A standard feature of Beamtec.

Specifying mobile steel pedestals for all members of staff, personal storage was created whilst maintaining the clean lines of the office.

No screens were used on any desking as per Gepp & Sons request allowing teams to work more closely together throughout the day. In addition to the open desk environment, monitor arms were used, as suggested, to maximise the amount of desk top space available.

The project was completed on time and within Gepp & Sons predetermined budget due to the close relationships formed between all parties involved.
